

Ruth Reynoso has been sharing her passion for education with students and colleagues for more than thirty years. Before signing on with KOI Education as a PBIS Learning Systems Trainer and Coach, she spent eighteen years in the classroom teaching General, Honors, and AP Chemistry. For the remainder of her time in public education she became a teacher mentor and staff developer, helping teachers to improve their teaching in order to assist their students in learning more effectively. During her tenure, she was recognized as an Arizona Master Teacher and looks forward to sharing this expertise with educators to enhance the learning experience for all.
